

CITY OF LODI

COUNCIL COMMUNICATION

XQNDA TITLE: Sale of Surplus Vehicles and Equipment
MEETING DATE: March 18, 1992
PREPARED BY: Finance Director

RECOMMENDED ACTION: That the City Council authorize the sale of surplus **vehicles** and equipment that have been removed from service and are of **no** further use to the City.

It is further **recommended** that the City Council authorize sale of the vehicles and equipment through public auction, rather than sealed bid procedures set forth in Lodi Municipal Code Sections 2.12.120 and 3.20.070.

BACKGROUND INFORMATION: Each year, as the City replaces older vehicles and equipment, the older units are offered for sale and sold to the highest bidder. Last year, sale of surplus vehicles and equipment generated about **\$21,000** in revenue for the City.

This year, various City departments have removed from service 18 vehicles and 20 pieces of equipment which, when sold, should generate about **\$30,000** in **income**.

In the past, surplus items have been sold through the sealed bid process. However, this procedure involves **numerous** and time-consuming administrative functions which would be reduced or eliminated under the auction process. Presently, the cities of Sacramento, Roseville, Stockton, Modesto, and the County of San Joaquin dispose of surplus vehicles through **public** auction. The Lodi Police Department consigns unclaimed property to the Modesto auctioneering company Roger Ernst & Associates.

It is therefore **recommended** that the City consign the surplus vehicles and **equipment** listed on attached Exhibit A to Roger Ernst & Associates for sale at public auction.

FUNDING: None required.

W. D. Flynn, Finance Director

APPROVED: 

THOMAS A. PETERSON
City Manager
